Big Data Engineer

Professional Experience

Data Engineer / Backend Dev

Medexprim - Since May 2022

Production of medical imaging processing algorithms. Development of a processing management, data sharing and display platform..

Data Scientist

Engie - Sep 2021 to Mar 2022

Research into a metric for re-training data on time series models and production launch of the solution. Creation of a prediction model for an air handling unit. .

Solutions Architect

Orange Business Services - 2017 to 2020

Creation of network, customer service and telemetry solutions for companies based in France and abroad..

Languages

Anglais

Bilingual TOEIC 960

Espagnol

Intermediary

Hobbies

Climbing

Music

Tabletop Games

Tech Enthusiast

Badminton

Ecology

Skills

Cross-functional

Git, PyTorch, Python, Scala (*Learning*), DICOM

Machine Learning

SQL, Statistics, sklearn, SVM, Clustering, Arbres de Décision, Ensemble Learning, Réseaux de Neurones, Semi-Supervisé, Non-Supervisé, Séries Temporelles

Backend

Django, FastAPI, Airflow Pipelines
Unix, Docker, Devops Kubernetes, Bash, pySpark

General

Office softwares, Agile

Education

Mastère Spécialisé

Télécom Paris - 2020-2021

Management and analysis of massive data

Engineering Degree

IMT Mines Alès - 2017 - 2020

Software Development Speciality

Semester Abroad

University of West England - 2017

University Technology Diploma

Université Côte d'Azur - 2015-2017

Electrical Engineering and Industrial Computing
